For the attention of Douglas Williams

RE: DJK Renewables recommendation

Dear Mr Williams,

We would like to congratulate you and all of your team for a job well done on the PV installations at our premises in Horton; Berkshire and Arlesey; Bedfordshire.

During our research into various renewable options we found the quality of information and depth of detail provided by yourselves far exceeded your contemporaries. During our research period of nearly 12 months we found you always ready to help us with our enquiries and happy to discuss at length any technical or financial queries we had.

We would like to acknowledge the speed of service which you provided considering the very tight deadline we had to get our installations registered before the drop in Feed In Tariffs. Your ability to work with our ever changing demands on site and to still finish within this deadline was critical to the viability of the schemes and no new requirement was ever too much to be accommodated by you or your workforce.

We would also like to extend our thanks for the out of hours emergency response provided by DJK during the damage recovery works earlier this month, which was again prompt and professional to the highest standards.

Due to the high standards of advice, support, workmanship, approach to safety and general professionalism demonstrated by your organisation we would be pleased to recommend your services to any prospective clients.

Thanks again and we hope we have opportunities to work with you again in the future.

Sincerely

A handwritten signature in blue ink, appearing to read 'Ben Victory', is written over a light blue circular stamp.

Ben Victory
